Letter of Intent

The Centre for eHealth and Health Care Technology at University of Agder (UiA) are preparing an application to the Research Council of Norway, for a Lighthouse project 2017-2022 with a focus on new ICT solutions and national reference infrastructures for connecting patients/end-users at home with new alarm systems and telehome-care solutions (Home 2 Health).

We hereby confirm the interest of **[name of institution]** to partake in the Home 2 Health (H2H) projects as outlined in the project description.

We look forward to participate in the project as a partner provided external funding from the Research Council of Norway, and we will actively give our inputs during the application writing process.

The focus of the projects is targeting relevant issues for us, according to our strategy plans.

Date: **[date]**

Sincerely

[name]
